PROFESSIONAL SUMMARY

Operations Analyst with nearly 4 years of experience in data validation, data quality management, workflow automation, dashboard reporting and operational analytics. Personally verified 400,000+ links and implemented automation that reduced processing time by 95% (5 hours to 15 minutes). Experienced in team coordination, performance tracking and management reporting. Expanding into data analytics through an ongoing Power BI & Data Analytics internship and portfolio projects in Excel, SQL, Power BI, Python and n8n, focused on turning raw data into meaningful business insights.

TECHNICAL & PROFESSIONAL SKILLS

Data Management: Data Validation, Data Cleaning, Data Quality Checks, Record Categorization

Analysis & Reporting: KPI Reporting, Dashboard Reporting, Data Visualization, Stakeholder Reporting, Performance Monitoring, Team Coordination

Tools: Microsoft Excel, SQL, Power BI, Python

Automation & AI: n8n, ETL Workflows, Workflow Automation, LLM Integration (OpenRouter), Telethon, Telegram API

Currently Learning: Tableau, Pandas, NumPy, PostgreSQL, Matplotlib, Seaborn

PROFESSIONAL EXPERIENCE

WARX Digital Private Limited | Erode, Tamil Nadu **Dec 2022 - Oct 2026**

Department: Anti-Piracy Operations

Senior Operations Analyst *Jun 2024 - Oct 2026*

- Personally monitored and verified 400,000+ links, maintaining structured records through a two-stage verification process to protect data accuracy.
- Automated repetitive workflows, reducing processing time from 5 hours to 15 minutes (95% reduction), and guided team members through the automation steps.
- Maintained dashboards and tracking sheets to monitor work progress, data quality and pending tasks.
- Coordinated task verification and workflow guidance for a 7-member team, supporting daily productivity targets.
- Prepared quarterly workflow reports and daily client reports, communicating operational findings to support management decisions.

Junior Operations Analyst *Dec 2022 - May 2024*

- Monitored potentially pirated content across assigned platforms, collecting URLs and documenting findings in tracking sheets and project systems.
- Checked link status, organized records, and delivered daily progress updates to support client reporting and content-removal workflows within project timelines.

INTERNSHIP

Power BI & Data Analytics Intern | Novitech R&D Pvt. Ltd. (Online) *Nov 2026 - Dec 2026 (Ongoing)*

- Participating in a 30-day, project-based online internship in Data Analytics and Business Intelligence.
- Building data analysis and visualization skills using Power BI, Excel, Python and Tableau, with data manipulation practice in Pandas and NumPy.
- Exploring PostgreSQL for database querying and data management; learning visualization with Matplotlib and Seaborn.
- Strengthening SQL, data cleaning, reporting and dashboard creation through guided assignments and independent practice.

PORTFOLIO PROJECTS

Sales Data Analysis & Power BI Dashboard | *Power BI, Data Analysis, Visualization*

- Analyzed sales records to summarize trends and customer patterns, and presented key performance measures in an interactive Power BI dashboard.

AI-Powered Data Cleaning & ETL Automation | *n8n, OpenRouter LLM, Data Quality, ETL*

- Developed an n8n workflow that integrates an OpenRouter-hosted LLM to profile datasets, flag missing or inconsistent values and apply validation rules.
- Designed repeatable data-preparation steps that produce analysis-ready data and reduce manual handling.

Telegram Link Extraction & Verification Automation | *Python, Telethon, Telegram API*

- Developed Python utilities to retrieve message and media-post links, extract relevant URLs and organize results into text files for verification and reporting.

EDUCATION & CERTIFICATION

B.E. in Electronics and Communication Engineering (ECE) **2016 - 2020**

Vidya Vikas College of Engineering and Technology

Python Programming Certification
